Examiner's signature, if required

Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant's representative agrees to amend the claims to fix the 112 rejection as set in the office action and also to amend claim 16 to include a correspondence of one level of the map to another scale of the map. Applicant's representative makes reference to the specification on page 24-26 for linking parameters support. Applicant's representative argues that the Fushimi et al. prior art does not teach correspondence of one level of a map to another scale of a map. An official response will be filed .
